I. PURPOSE

The purpose of the Sitka Tribe of Alaska's Higher Education program is as follows:

1. To financially assist qualified applicants who are enrolled in an accredited college or university program. The Sitka Tribe of Alaska scholarship program uses the Department of Education's database to verify that an individual's school meets these accreditation standards.
2. The purpose of these guidelines is to establish policies and procedures that govern the award of Higher Education Scholarship Funds. Funding through the Higher Education program is allowed up to five (5) years in a lifetime per student (\$3,000 per academic school year) for undergraduate studies, in the maximum amount of \$15,000. Graduate students are eligible to receive funding even if they were awarded five years as an undergrad, provided there is money available in the budget. Graduates are eligible for a lifetime maximum of \$9,000 not to exceed the amount awarded for undergraduate students (\$1500/semester or \$1000/term).
3. Funding through the Sitka Tribe of Alaska is strictly supplemental. This means that the majority of funding must come from other sources, which should be included in the budget forecast section of the scholarship application. Any changes in financial aid throughout the academic school year should also be provided to the Education Department in a timely manner. The maximum amount awarded through our program in an academic year (August 1—July 31) is \$3,000* (\$1,500/semester or \$1,000/quarter). In order to be eligible for the full amount, the student must submit an application by the April 1 deadline. If the student misses this deadline, he or she may still apply for funding by the October 1 deadline. However, the maximum award decreases to \$1500/semester or \$750/quarter. Please keep in mind that funding may vary based on: scholarship budget, number of applicants, Tribal priority, etc. At the student's request, the Committee can decrease funding for fall and spring awards if the student plans on attending during the summer term. This does NOT make the student eligible for more funding, it simply allocates the scholarship award differently. For example, a student attending a semester school may receive payments of \$1,000 over the three terms (fall, spring, summer) instead of \$1,500 (fall, spring).
4. A student awarded a scholarship in the maximum award (\$3,000) for the academic year (August 1—July 31) may apply for a part-time scholarship (see Section VIII) during the summer term provided he or she has not maxed out the

5 years of undergraduate funding in the maximum amount of \$15,000.

Also, the Committee does not fund student(s) pursuing similar degrees. For example, the completion of an Associate degree program should lead to a Bachelor's degree program and so on. If the student requests funding for a second Associate degree or a second Bachelor's degree, his or her request will be denied.
